Vision Statement

Saint Catherine Medical Center Fountain Springs is committed to being the premier provider of choice for health and wellness services in our community.

Mission Statement

Saint Catherine Medical Center Fountain Springs is committed to establishing itself as a center of clinical excellence, the preferred medical center for residents of our region and for physicians to practice, and the regional employer of choice. This will be achieved through the development and introduction of services based on the current and future needs expressed by those we are committed to serve... community members, physicians and staff.

Values

Saint Catherine Medical Center Fountain Springs will be guided in its Vision and Mission by its Values, based on a foundation of COMPASSION.

Communication	Communicate effectively and openly.
Opportunity	Create opportunities for growth.
Motivation	Motivate teams through exceptional leadership.
People	Provide a quality experience for our residents and their families, employees, physicians and public.
Advocacy	Encourage community stewardship.
Success	Achieve competitive advantage through innovation.
Safety	Ensure a safe environment for all.
Integrity	Foster a culture of respect, trust and honesty.
Ownership	Inspire personal and financial accountability.
Network	Cultivate relationships for successful collaborative ventures.

*Providing the care you need...
...when you need it most.*

Saint Catherine Healthcare Center

A Division of Saint Catherine Medical Center Fountain Springs

(570) 875-5707

101 Broad Street, Ashland, PA 17921

Individual Needs

Saint Catherine Healthcare Center is licensed by the Pennsylvania Department of Health and is a Medicare/Medicaid approved facility providing 24-hour nursing care.

The team of skilled professionals at Saint Catherine Healthcare Center recognizes the individuality of each resident. Upon admission, a comprehensive assessment is performed for each resident and a care plan is developed to meet his or her unique needs.

Saint Catherine Healthcare Center is able to provide subacute care and rehabilitative services on a short-term or extended basis for patients who require rehabilitation after acute hospitalization. A wide-range of comprehensive medical treatments and services are available, designed to meet the needs of each patient, with the goal of returning the individual to his or her home environment.

Rehabilitative Services

- * Infection Control
- * I.V. Therapy
including hydration and medication
- * Pain Management
- * Rehabilitation Services for Orthopedic Patients
- * Respiratory Care Services
including tracheostomies
- * Wound Management

Comfort Is a Priority

Saint Catherine Healthcare Center offers both private and semi-private furnished rooms, each with telephone and cable television, overlooking the beautiful Broad Mountain. Residents are welcome to bring some items from home (i.e. a favorite chair, blanket, etc.) to create a more home-like atmosphere within their living space.

A calendar filled with a variety of activities each day will engage the mind, body and spirit. Family and friends are encouraged to participate in activities, adding spontaneity to our programs. A beautiful chapel is available for personal meditation, as well as scheduled religious services.

The nutritional requirements of each resident are reviewed, and an individual dietary plan to meet those needs is developed. Three meals are served each day; residents are encouraged to dine in one of our dining rooms for socialization, but also may choose to take meals in his/her own room.

Admission Policy

It is the policy of Saint Catherine Healthcare Center to admit only those residents whose medical and nursing care needs can be adequately provided for and only upon the written order of the attending physician.

Admission to Saint Catherine Healthcare Center, the provision of services, and referrals of residents are not based upon race, color, religion, disability, ancestry, national origin, familial status, age, sex, limited English proficiency (LEP), or any other protected status.

What Our Residents Are Saying

"Everything is so clean. The nurses take good care of us and I receive great medical attention. The staff treat me like one of the family." ~ Mary F., resident since June 2004.

"The staff is respectful of me and they are friendly. I enjoy all of the activities they have here and the rooms are very clean. Most of all, my family is closeby and can visit often." ~ Mary M., resident since November 2003.
